THE PAYACHARITY PAYTER

Fitted with a roaming SIM card, you can connect to all major mobile networks. Should you be fundraising at a location with no signal, then the box will accept offline donations – which means that the transaction is stored within the device until signal is regained.

- Lightweight and easy to manage for your Volunteers and Donors. No pin required, just tap and go for a fast and safe donation.
- The Payter can be configured to accept recurring donation requests of whatever amounts you choose, giving you more control over your donations.
- The Payter doesn't need pairing with other devices to work, no logins required.
- The Payter has both LAN and SIM connection to ensure quick processing of transactions no matter where you are.
- The Payter has up to 8 hours of battery life and can be used all day. You can also charge the device overnight and connect to a power bank when needed.
